PROFILE

Staff network engineer with experience since 2018 in enterprise wireless, campus architecture, data-centre networking and automation. Leads enterprise wireless and campus architecture across EMEA at Synopsys, combining RF planning and validation with hands-on Aruba and Cisco delivery. Previously supported the Porsche project at ITCG.

EXPERIENCE

Synopsys GmbH, Munich | Network Engineer Staff

2022 - Present

- Lead enterprise wireless and campus architecture across EMEA, including wireless design and operations using Aruba Mobility Master and Aruba Central.
- Lead the migration of on-premises wireless environments to Aruba Central / AOS 10.
- Design 6 GHz wireless architecture, conduct Ekahau surveys across offices and deploy UXI / Cape sensors to validate connectivity.
- Deploy Cisco ACI switches and maintain data-centre network infrastructure.
- Automate Aruba L2/L3 switch provisioning to reduce manual setup effort and support repeatable deployment.
- Deliver network upgrades and align implementation with operational requirements.

Synopsys GmbH, Munich | Network Engineer II

2020 - 2022

- Managed Aruba controllers and access points through Mobility Master.
- Supported multi-vendor networks, including Cisco Nexus and Catalyst switching.

ITCG AG | Network Engineer

2018 - 2020

- Planned and optimised Cisco WLAN and LAN environments for the Porsche project.
- Performed predictive and active Ekahau surveys; supported monitoring and documentation using Cisco Prime, Jira and Remedy.

TECHNICAL EXPERTISE

Enterprise Wi-Fi / 6 GHz | Aruba Central & Mobility Master | Ekahau RF surveys | Cisco ACI, Nexus & Catalyst | Aruba L2/L3 automation | UXI / Cape sensors

EDUCATION & CREDENTIALS

M.Sc. Information and Communication - TU Chemnitz, Germany

2014 - 2018 | Grade 2.4

B.E. Electronics and Communication - Rajasthan Technical University, Kota

2008 - 2013 | First Class

Credentials: CCNA | 300-620 DCACI | ACMP

Languages: English and Hindi (fluent) | German (A2)
